

Cowichan Valley Regional District

STRATEGIC PLAN 2014 » 2018

The Cowichan Valley Regional District is one of 27 regional districts in British Columbia. It is comprised of nine electoral areas and four municipalities in the southern part of Vancouver Island. With a population of over 80,000 residents it covers a land area of 3,473.12 km².

CVRD OVERVIEW

GOVERNANCE

The CVRD is governed by a 15 member Board comprised of appointed directors from four municipalities (North Cowichan has three appointees based upon population) and an elected director from each of the nine electoral areas. The CVRD Board elects a Chairperson and Vice-Chairperson annually. The Chairperson is responsible for establishing the committee structure of the Board.

SERVICES

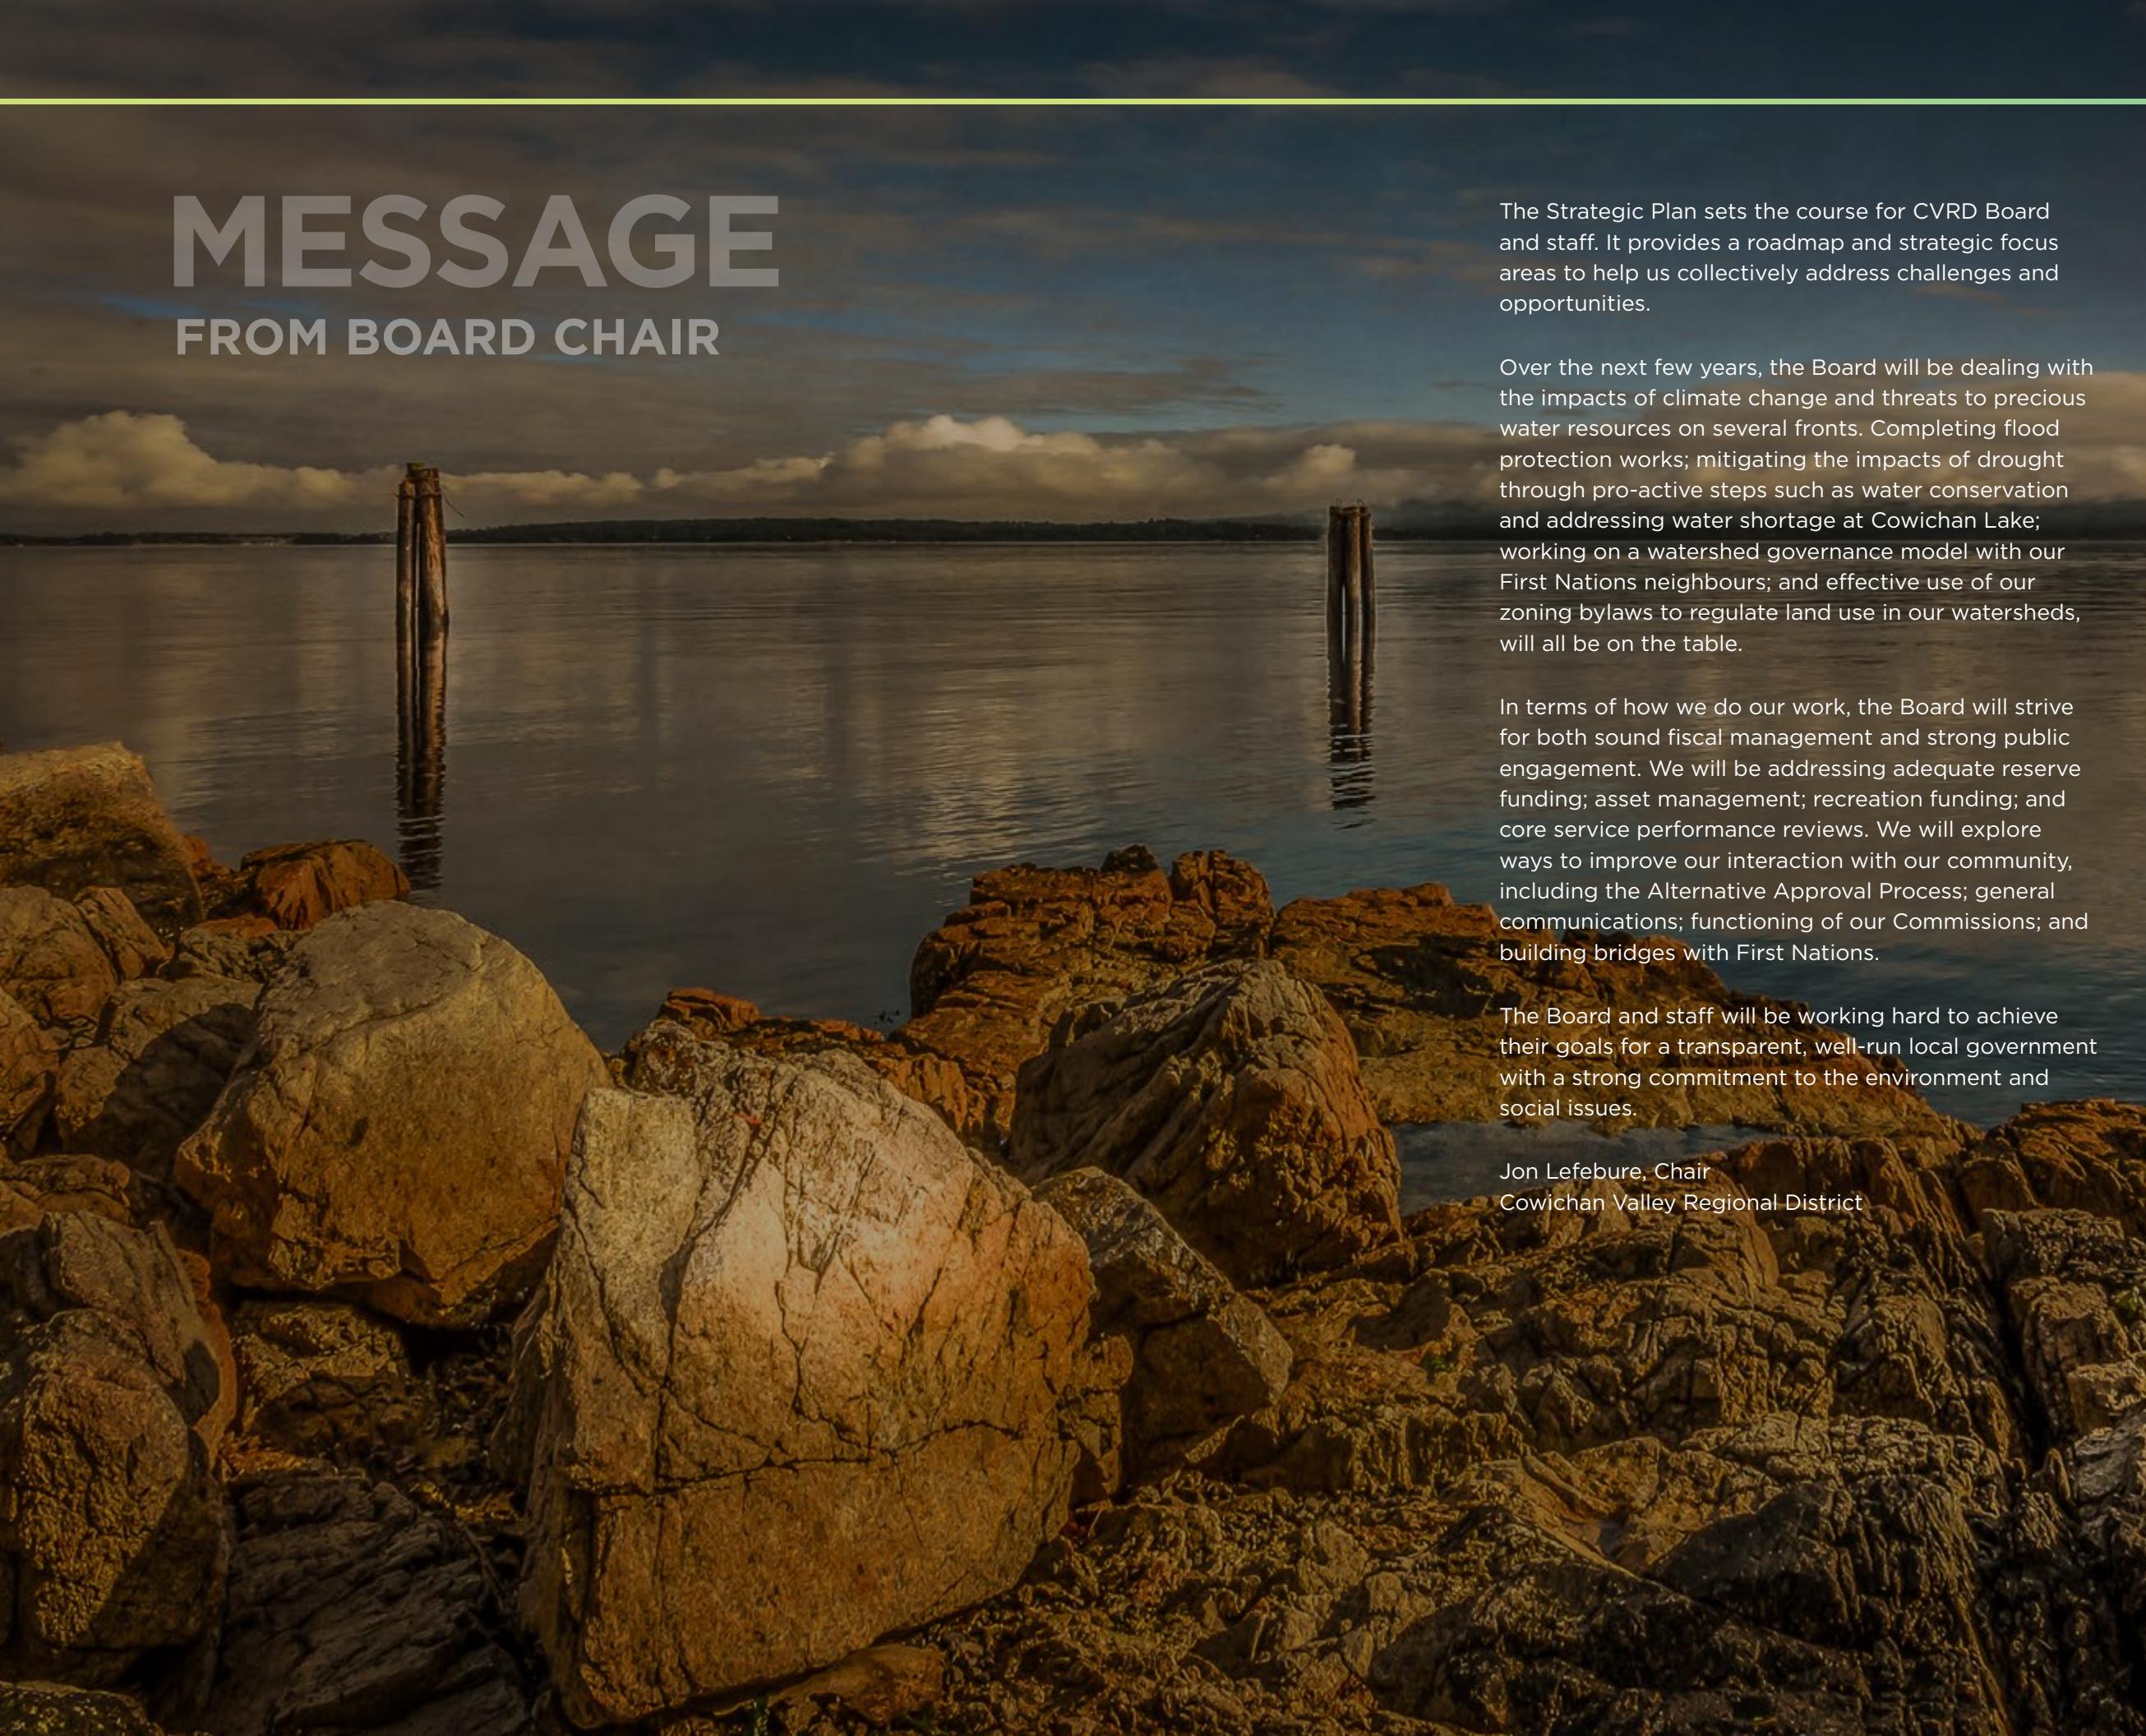

The regional district provides a broad range of services to its residents. While a small number of these services are mandated by the Province (solid waste, emergency planning, land use planning), the majority of services provided by the CVRD are determined by the Board. However, services can only be provided with the approval of the electors who will receive them.

The services provided can be regional, sub-regional or local, they include the following examples:

REGIONAL	SUB-REGIONAL	LOCAL
Solid waste management, 9-1-1, emergency planning, administration, economic development, environmental services, regional parks, capital financing for hospitals	Land use planning, bylaw enforcement, building inspection, recreation centres, parks, transit	Fire protection, water and wastewater systems, community parks, community centres, and critical street lights

FUNDING

Funds required to operate the various regional district services are generated through property taxes, fees and charges. Unlike municipalities, regional districts are required to match the costs and benefits of its services to the residents that benefit from them; this means residents pay for the services they receive.

MESSAGE FROM BOARD CHAIR

The Strategic Plan sets the course for CVRD Board and staff. It provides a roadmap and strategic focus areas to help us collectively address challenges and opportunities.

Over the next few years, the Board will be dealing with the impacts of climate change and threats to precious water resources on several fronts. Completing flood protection works; mitigating the impacts of drought through pro-active steps such as water conservation and addressing water shortage at Cowichan Lake; working on a watershed governance model with our First Nations neighbours; and effective use of our zoning bylaws to regulate land use in our watersheds, will all be on the table.

In terms of how we do our work, the Board will strive for both sound fiscal management and strong public engagement. We will be addressing adequate reserve funding; asset management; recreation funding; and core service performance reviews. We will explore ways to improve our interaction with our community, including the Alternative Approval Process; general communications; functioning of our Commissions; and building bridges with First Nations.

The Board and staff will be working hard to achieve their goals for a transparent, well-run local government with a strong commitment to the environment and social issues.

PURPOSE OF STRATEGIC PLAN

IN DECEMBER 2014, the Cowichan Valley Regional District Board of Directors embarked on their four year mandate following the municipal elections. During 2015, through a series of workshops, the Board identified the challenges and opportunities in the region. Work then began on developing a plan that streamlined the issues, and prioritized actions to address them.

The 2014-2018 Strategic Plan reflects the collective vision of the Board and provides increased focus for the identified priorities. It will guide the CVRD Board and staff in making Cowichan communities the most livable and healthy in Canada.

It is critical the CVRD monitors and measures the implementation of this plan. Quarterly reports to the Board as well as an Annual Report will provide an opportunity for staff and the Board to communicate progress in achieving the various goals.

RESPONSIVE, OFFICIAL COMMUNITY PLANNING

GOAL

Enhancing the capacity for OCP reviews and updates as well as harmonizing regulation for common land use objectives and policies, where possible, while respecting the character and aspirations of each community.

WHY?

Current OCP reviews can take up to two years to complete. This contributes to increasingly out-of-date OCPs that require extensive updates when they are eventually reviewed. Additionally, providing consistency in how common land use objectives and policies are defined will assist developers in applying the policies and objectives across the region.

PROACTIVE APPROACH TO BYLAW COMPLIANCE

GOAL

ELECTORAL AREA DIRECTOR DEVELOPMENT

GOAL

ROAD SAFETY/PEDESTRIAN PATHWAYS

GOAL

Improve pedestrian/cyclist safety on rural roads by developing a network of on-roadway and off-roadway pedestrian pathways and trail linkages.
