RAIL TRAIL PROPOSAL

TRAIL CONCEPT PERSPECTIVES

PERSPECTIVE #1

Looking North from Shawnigan Wharf Park towards Elsie Miles Park and the Shawnigan Train Station.

PERSPECTIVE #2

Looking South from Shawnigan Wharf Park where the trail crosses the railway and continues along the west side of the rail corridor heading south towards Old Mill Park.

PERSPECTIVE #3

A typical view south along the trail where a fence likely would be required due to constrained space between the tracks and lake foreshore. Fencing would be for safe separation of rail operations from trail users.

PERSPECTIVE #4

A typical view north along the trail where a fence is likely not necessary as the trail is aligned with sufficient separation from rail tracks and lakeshore.
