

## 530 – Cowichan Flood Management

The role of the Cowichan Flood Management function is to develop and implement flood management plans within the watershed and act as the diking authority for dikes and related works constructed by the CVRD including: constructing, upgrading and maintaining dikes and associated structures, undertaking periodic log and gravel management, flood modeling, and maintaining a flood monitoring and early warning system. Expenditure categories include: contracts for services, wages and monitoring. The function is funded primarily through requisition, grants and service agreements. Capital expenditures will be funded primarily through savings, grants and partner contributions.
